The following are true testimonials from customers who have used the Magic Peeling Glove®. Each testimonial is unique in it's own way. From acne, to stretch marks, to healthier skin, the Magic Peeling Glove® has changed the lives of many.

"To whom it may concern:

My name is Manual Navarro and I recently purchased the Magic Peeling Glove® from you guys (about a month or so ago). I have had a bad problem with my skin for as long as I can remember. I tried medication, different soaps, eating differently and nothing ever seemed to work. I was so embarrassed sometimes because as I got older my skin just seemed to get worse. After I started using your product I noticed the difference about 2 weeks later. I couldn't believe it. I can honestly say I bought the glove on impulse and I didn't think it would do what it did. I just wanted to write you to say thank you. Thank you for making something that actually works."

Sincerely,

Manual Navarro

"I love it! Your product is wonderful! As a woman it isn't customary to reveal my age, but I will say I am in the 30-40 somethings ;) and I feel great! My skin is softer and I feel younger than ever before. I have been using the glove for almost 6 months and it is unbelievable. I would definitely recommend it to anyone wanting better skin. Thank you, thank you, thank you!!!"

"My husband is 37 and I am 36. We have been using the Magic Peeling Glove® for awhile and we love it. I started using it first and then my husband (which took some convincing). Now he seems to use it more than I do, even though he will never admit it! Wherever we go, people constantly compliment us on our skin. When you get to a certain age, your skin changes it takes a lot more effort to take care of it. The Magic Peeling Glove® makes it so easy."

Ok, I was skeptical. My dry skin doesn't respond to anything, boy how I have tried! Pumice doesn't even work very well, and the words 'gently exfoliates' drive me up the wall.

I read the rave reviews here, and I bought the glove because it was cheaper than a belt sander. It shipped quickly enough, and came in a package emblazoned with instructions in several languages. After a five minute soak in warm water, you are supposed to use the glove against your skin up and down a few times, and that's that.

Oh. My. God. I love this thing. I can't believe just how much dead skin came off! It can take a little scrubbing, but the results are worth it! There were some rough spots on my arms that are almost gone now. I have a 4 in surgical scar that even looks a little lighter after a few uses.

I really hope you guys come out with some skin cream or something soon because I like this product so much. I didn't realize how much "dirty" skin I had on me. Of course I bathe everyday, and I take rather good care of my skin. I get facials every 6 weeks and I also use some high end products. My skin is in good condition and I always thought I was doing all that I could to take care of it. Then I bought your glove out of sheer curiosity. It has now become my #1 product. No matter WHAT I do I cannot go without using it. No matter what I put on my skin, it doesn't feel the same unless I have used the glove. Liek I said, I really am curious to see what other products you may have.

I've tried virtually every sort of exfoliating glove available and wasted a lot of money over the years. I figured I'd give this a shot based on the reviews and truth be told, wasn't expecting much.

Boy, was I wrong. The instructions to the glove's use are very clear and I used it exactly as directed.

No exaggeration, my skin hasn't felt this soft in years. I have very dry skin that lotion tends to "sit" on top of. I found that after using the glove, the lotion truly absorbed into my skin and it feels absolutely hydrated.

The directions do caution that the product should only be used twice weekly on "mature" skin. It must be for a reason. The glove exfoliated my skin to the point where I found that my body lotion stung me in a couple areas where I must have rubbed too vigorously.

I'm a (shocked) believer
